We are fighting the wrong war

The Democrats have launched an all-out [war on America](#). The conservative side, as represented by the GOP, has been overwhelmed by the sheer number of battles being waged by the left. They want to kill the Electoral College, give statehood to DC and PR, pack the Supreme Court, destroy Federalism (our form of government), assume authority to control all elections (taking that power from the states), kill the 2nd and 10th Amendments and drastically re-write the 1st Amendment to our Constitution. They want to force union membership in order to be able to work, they want to do away with jobs for which you get paid on a 1099 basis (this is currently 57 million jobs!). This list is not close to being complete.

And, as important as each of these battles might be, we are fighting the wrong war. We are playing nice with cold-hearted killers. We've brought a knife to a nuclear war. We are playing by the [Marquis of Queensberry](#) rules, whilst the Democrats are using [Sun Tzu's The Art of War](#).

All it takes is an hour or so on CNN/MSNBC to hear that we are terrorists, racists and much worse. [Listen](#) to Chris Cuomo (the dumber brother of the NY Governor) agree that the GOP must be killed if America is to survive.

The Democrats are literally taking control of the country, and will alter it until it becomes unrecognizable. What you think of today as your 'rights' will cease to exist. They will no longer be supported by the courts. Congress is passing laws that a simple reading of the Constitution would show to be totally illegal. Once they have re-written the Constitution by legislation (legal changes to the Constitution are covered in the document itself, but are being ignored by Democrats), there will be nothing, absolutely nothing, to prevent them from doing what they want.

So, what is the war that we should be fighting? It is simply whether America should continue to exist at all. We have 10s of millions of people who want socialism. And more who want capitalism. I have news for you. socialism and capitalism can **not** co-exist in one country. The basic precept of each economic philosophy makes the existence of the other to be impossible. Our country, as we have known it, can **not** continue bouncing between capitalism and socialism. Either one must win out, or we must split this country into two. There is a lot of discussion going on about this topic at the highest levels of government and civilian life. Here is an [article](#) that might get you started exploring, and understanding where we are heading.

The American is not related in any way, to any political party. The editor is not a member of any political party. We seek only the truth, regardless of who it helps – or hurts. You can reach us at newsletter@rstannard.com

A Little Humor

Not investigating election fraud
because the election is over...

is like not investigation murder
because the victim is dead.

The 9th Circuit Court (California, where else?), has **ruled** that the Constitution does not expressly permit people to publicly carry guns. The judges must be California educated, because they obviously cannot read. Here's the 2nd Amendment wording:

"A well regulated Militia, being necessary to the security of a free State, the right of the people to keep **and bear** Arms shall not be infringed."

What can I do to help?

This is perhaps the most common question we receive. Here are a few thoughts.

Some of us have time, but not a lot of money. Others have money, but not a lot of time. Whichever group is yours, there are ways to be part of the solution.

Easy solutions that will require your time

- This newsletter is, and will always be, free. If you think it is worthwhile, spread it to your friends and family. Even if they are lefties. Do NOT be afraid to stand up for the beliefs that millions of Americans have given their lives to defend. Your silence gives the left their power.
- Educate yourself. There are innumerable sources to help you become conversant with today's issues. The yellow box to the left lists a few of my favorites.
- Get involved in our education system. Education is a local topic. Schools are locally run entities. We are finding schools across the country that have decided to teach Critical Race Theory and Project 1619. If your local school is one of them, join with parents and citizens and start attending school board meetings. Let the school board know of your displeasure. Silence is acquiescence.
- Volunteer for your local elections. Help keep them free and fair.
- Understand that voting for national politicians is important, but voting to control your own local community is key to the future. Learn about the candidates. Speak with them. Find out their beliefs. And tell your friends and neighbors what you have found. Our country will only be as strong as the communities on which it is built. Stopping socialism begins at your door.

If you are lucky enough to have excess money

- Nothing good in life comes free. Including Freedom. Even George Washington had to raise money to raise an army. Many of the organizations in the yellow box on the left can use your financial support. They all play a valuable role in our lives.
- The American has applied for 501C(3) status. This newsletter will always be free, but if you want to contribute, contact us at newsletter@rstannard.com

The final word comes from Aesop

"It is easy to be brave from a safe distance." Get in this fight, with your effort or your funding. Don't sit on the sidelines wondering what to do.
