

The American

September 29, 2021 | Volume 1, Number 21

"Elections are won by men and women chiefly because most people vote against somebody rather than for somebody.

Franklin Pierce Adams

We Are Being Attacked From So Many Areas. Here's 2

The IRS has been an instrument of social control ever since Elliott Ness used the tax codes to put Al Capone in jail. It is nice to think of that august body being used in such useful ways. But anyone who has ever run afoul of the IRS will tell you that it is not a pleasant experience. And it is about to get much, much worse.

Thanks to the marvels of technology, our wonderful Federal government is about to turn the IRS against anyone who keeps more than \$600 in a bank account. Yep, the feds are ready to turn IRS loose on most everyone in this country. They have passed regulations (not even real laws, just bureaucratic regulations) that will require all banks to report all transactions (like deposits, withdrawals and checks) to the IRS. There will be no financial privacy if you use a bank. Everything you do will be an open book, and WILL be used against you, should our ruling elites decide to do so.

The freedoms we were given by the Constitution are vanishing before our eyes.

Attack #2

We all have worried that our elections were rigged. Yet we've hoped against hope that our fears have been misplaced, and that the elections, by and large, have been free and fair.

You can now put those hopes to rest. The Maricopa Audit paints a stunning picture of incompetence on a monumental scale; and that incompetence is likely being used to hide intentional fraudulent behavior. WHAT!?! you say? Didn't the audit report that the vote totals were close enough to not change the results? Yes, indeed, the audit report did say that. And a lot more.

The audit was made up of two distinct sections. First, the vote tally. This is merely a recount of the votes as tallied by Maricopa County. And indeed, the recount was within acceptable margins of error. But wait. The audit was about more than a simple recount. It was about each and every ballot paper, and its validity.

The Cold Civil War

Where are we, as a country, going?

Last issue I spoke about the likelihood of secession. In this issue’s *Imprimis* article, Charles Kesler goes into well thought out detail regarding the 5 possible outcomes for our divided nation.

Hillsdale College is a school that accepts no federal funding, and therefore accepts no federal control. Their *Imprimis* is a collection of speeches and articles from a conservative viewpoint.

They can be found [here](#).

“Elections should be held on April 16th- the day after we pay our income taxes. That is one of the few things that might discourage politicians from being big spenders.

Thomas Sowell

And this is where things have gotten very ugly. I will supply a few of the many pertinent details. The rest you can read for yourself, as we have obtained a copy of the 8-page [Executive Summary](#).

- There were 17,126 unique voters who submitted a total of 34,448 duplicate ballots.
- 7,797 duplicates came in between 11/04/20 and 11/09/20 (3 days AFTER the election was over).
- After the election was over, 96% of ballots received were duplicates
- The mail-in ballot envelopes were analyzed looking for no signatures. There were 4,499 blank signature ballots, 3,044 more than the 1,455 that Maricopa County reported.
- In a random sample of over 200 signatures before the 2020 Election-day 3% were deemed “Illegible” signatures and 97% “Legible” signatures. Four days after the Election Day, 97% were deemed “Illegible” and 3% “Legible” from the same 200 ballots.
- There were 8,068 less [sic] mail-in ballots than Maricopa County reported.
- Maricopa stamped some return envelopes “VERIFIED & APPROVED MCTEC” even though the signature was missing. And these ballots were counted!
- There were more than 53,000 legally deficient ballots that should not have been counted, but were.

All of the above were merely the forensic audit of paper ballots. The mis-use of the voting machines is where the real action occurred.

To get the full ugliness, you will need to read the 8 pages. [Here it is again](#).

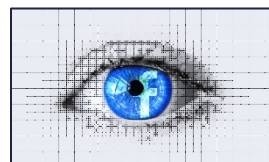

Lastly, the Arizona audit is only the first. Next will be PA and GA. Once these are finished, we will begin to understand the full scope of the problem. This election was stolen. Laws were broken. People need to go to jail, or it will continue to happen.

American Endeavor is a 501 C(3), not for profit, grass roots organization that seeks to increase communications amongst conservative minds. This newsletter, the American, is read and enjoyed by people around the world. It is also read – though perhaps less enjoyed – by leftists.

We believe that in confidently expressing conservative views, we will allow others to feel less alone in an increasingly hostile political environment.
