"If voting changed anything, they'd make it illegal"

Emma Goldman

This Issue's Guest Columnist

Back again on our pages is Emery McClendon, from Project 21, The Black Leadership Project. More of Emery's thoughts can be found at: <https://nationalcenter.org/project21/staff/emery-mcclendon/>.

Recently we learned that the Biden Administration along with the Pelosi, Schumer, Democratic Congress, have intentions to continue slapping American citizens in the face by finding ways to hand over taxpayer funds to new potential voters to ensure that they win future elections.

There is a lot of chatter coming out of the Biden Administration about a plan to dole out \$450,000 to \$1 million dollars to individual families separated from each other at the Southern Border under the Trump Administration "zero tolerance" policy in 2018. Reports claim that about 5,500 children were affected by the policy.

Biden and the Democrats are once again displaying contempt for Blacks for not being Black enough and for not remaining a loyal group who serve the wishes of Democratic Party future goals.

The Democrats seem to be spearheading a plan to purchase for themselves a new, larger, and more dependable voting block, and are not disguising the fact that they are willing to use taxpayer funds as a means to do so.

That's exactly what is happening! Today, the mothers of America's schoolchildren are now telling the powers-that-be that they will not allow their children to ingest the toxic, dishonest, racist brew of CRT. They are telling the innovators of this theory, the teachers who purvey it, the Attorney General of the United States, the FBI, and the President of the United States: Don't contaminate my child with your hateful, racist, anti-American, anti-White poison... or else.

This issue's **Imprimis** article is "**Zuckerbucks and the 2020 elections**" by Mollie Hemmingway.

Zuckerberg's helped left wing groups infiltrate election offices in key swing states by doling out large grants to crucial districts.

Hillsdale College, in Hillsdale Michigan, is a school with no dependency on our federal government. They accept no tax funds, for any reason, and therefore they cannot be coerced to act against their beliefs.

That leads us to the \$64,000 question. Where is the outcry from the Poverty Pimps, the NAACP, and groups like Black Lives Matter?

Why aren't they calling out old Joe or the Party for failing to allow the reparations that they have sought after for decades.? (Just one of the many broken promises to Blacks since the New Deal.)

The Biden Administration may possibly be sending a signal to Blacks that we are setting you aside, because there is a new group in town that they can bribe, because we no longer need your vote.

While most Black so-called leaders are focusing on how much power Kamala has been given by President Biden, he is playing a shell game that denies Black's a seat at the cash table.

The Biden Administration seems to be showing signs that Black Lives Don't Matter when there are bigger fish to fry, and they have decided to go fishing in a new pond.

This proposed payout is also an affront to the hard-working average American worker struggling to make ends meet under the Biden Administration's inflationary economic policies. Policies that are causing prices to skyrocket, and upset the supply chain and produce shortages and loss of jobs for many Americans. Why aren't they the first order of priority? Doesn't the slogan "Build Back Better" apply to everyone?

Why does an already failing economy need to be further stressed to provide for non-citizens that came to America illegally, and may have been purposely separated to circumvent the rule of law? Why are such huge amounts on the table?

Don't the people in Washington DC realize that our economic condition is already fragile? In some cases, a family could secure a payout of nearly \$1 million dollars, and the total bill could cost American taxpayers in excess of \$1 billion dollars.

There are answers that need to be addressed about this policy. We also need to investigate the mixed reactions over who caused the original problem in the first place. Some sources such as the Associated Press remind us that the practice of separating these families were used during the Obama Administration.

The promise of financial reparations has been discussed for decades in Washington, DC. America is plunging deeper and deeper into debt, so why is such a policy being considered for non-citizens by this Administration that completely ignores the original group of people that have been promised reparations but denied them for decades? It's time for America to stop this reckless spending and fix our real problems. It's also time for the Democratic Party to stop attempting to control special interest groups with entitlements and our tax dollars to control how they live and vote.

And a final thought from Kin Hubbard:

"We would all like to vote for the best man, but he never seems to be a candidate"
