"In politics, stupidity is not a handicap."

Napolean Bonaparte

The Many Chains of Slavery

My apologies for this issue being late. I have re-written this 5 times. And I have never been more unsure of the truth. All I can be sure of is that it no longer matters what the truth the is. What is going on is real. Why it is going on is my problem.

The left is looking to put each of us into a kind of slavery never seen before in the world. I simply don't know why, and that bothers me.

My dilemma is that I do not know if they are doing this out of pure, unadulterated greed, or if perhaps they are actually as stupid as their actions paint them to be. The psychologist Carl Jung has said that if you cannot understand someone's motivation, look at the results of their actions, and infer back from there. If chaos is the result, then the motivation must have been to create chaos!

And let us be clear here. America is a country in chaos. What we see, as the result of so many obviously stupid decisions, is that America is closer to its death throes than is comfortable. Therefore, we must infer that creating chaos was entirely the Democrat's plan. It is not credible that so many stupidities can have been enacted by some prolonged series of unfortunate mistakes.

One only needs to look at history to see where the American left has lived. Historically, the Democrats supported racial slavery.

- They fought to keep slavery during the Civil War.
- They created the Klu Klux Klan to be a quasi-military enforcement arm for their dreams of ruling over other people.
- 13th Amendment (ending slavery). 78% of congressional Democrats voted against. 100% of Republicans voted for the Amendment.
- 14th Amendment (Citizenship for freed slaves). Supported by 94% of the Republicans and 0% of the Democrats.
- 15th Amendment (Right to vote for all). Supported by 100% of the Republicans and 0% of the Democrats.
- The Jim Crow voting laws that the Democrats are waiving at their black 'supporters' while they point at Republicans, were ALL creations of the Democratic party.

And please do not raise Lyndon Johnson’s Great Society legislation “on behalf” of our black citizens. Johnson was an open and unrepentant racist. He told the Democratic congress to pass his bill, and he would have the “niggers voting for us for the next 200 years”. One only needs to look into our country’s big cities to see slavery in its most current form. And all due to the Great Society legislation. Americans with little future, supported by schools that don’t teach, and government that won’t protect. These are people that feel little connection with the America that we Conservatives have always believed in. The only surprise here is that so many of our black citizens have willingly traded in their street smarts for this slavery.

And yet, in the last election, we Americans have imbued the Democrats with the power to further enslave us all. And if you think this is mere hyperbole, you do not understand what is going on right now, right before your eyes. You are either willfully blind, or in favor of your own entry into slavery.

Slavery takes many forms. One is economic. The Democrats are destroying our economy. I can put that no more plainly. The enormous debt we are now operating under (30 TRILLION) cannot be serviced. The vision of our various leaders actually saying that 4 or 5 TRILLION dollars “will not cost anything” beggars credulity. They are publicly telling us how they are enslaving us, and laughing, as so many of us smile and say thank you, sir. May I have more?

Did you believe it when Biden said he wanted to make everyone pay their fair share of taxes? Really? Then were you surprised when he gave his rich Democrat supporters in NY and CA an \$80k tax break? Did you get yours too? No? What a shock!

How about Climate Change? This topic of pure fakery is being used to separate us from our money. And our freedom. You think electric cars are the savior of our future? The California grid cannot supply enough power now. What will they do when all Californians have 2 electric cars to charge? Every day. Maybe multiple times per day. It takes 0.01 kWh to charge a phone. 1 one hundredth of one Kilowatt hour. In contrast, a Tesla will take 75 Kilowatt hours. Our US power grid simply cannot now handle the power demand of recharging an electric fleet. And no one is talking about the cost of fixing that little problem. Will we all go out to buy one or two electric cars (at a current average of \$55k per car), only to find out that we cannot get the required power into our new cars. A growing number of credentialed scientists are no longer putting their hard-earned reputations on the line by supporting the un-supportable climate issue.

Energy is another form of slavery. After shutting the US fuel industry, he has been begging OPEC to increase production. If this weren’t so sad, it would be funny. In response to the expected increase in fuel costs, Biden released 50 million barrels from our Strategic Reserves, hoping that the increased supply would ease pump prices. But this is all a sham. The Strategic Reserves belong to we the people. Taking our own

We have these rights because we were born with them sewn by God into our nature, and we cannot find our earthly fulfillment without them. If we put these facts together as a people, we will have recovered the understanding that produced the American Revolution. We will stop these current predations upon our rights. We will bring this overwhelming government back where it belongs, under the control.

oil and selling it back to us is entirely a scam. And, by the way, [FOX news reports](#) that Joe sold 18 million barrels of OUR reserves to China and India.

Slavery can take another form: Unequal treatment. During the 2020 elections, Biden promised to end the virus. But words and actions are different creatures. Shut your ears and open your eyes. What have the Democrats actually done with the virus? Well, nothing good, actually. Recently, the CDC instigated rules that anyone entering the US must test negative on a Covid test within 24 hours of entry into our country. Fair enough. But there is a rather large exception: The millions of illegal – yes, ILLEGAL – entrants crossing our southern border, will not be required to pass any such a test. Is this a surprise? Why? This is only another example of the Democrats, actively and openly seeking the destruction of America. They simply do not care how many Americans die. If they did, their actions would be different than they are.

And we simply cannot ignore our current foreign policies, assuming we can ever figure out what they might actually be. One word: Afghanistan. We left an unknown number of American citizens to their own devices, after our President publicly and specifically said he would leave no one. In one fell-swoop, our Democrats – against the advice of our military – gave Afghanistan to China. Afghanistan, with large deposits of the rare earths that we are desperate to use. Afghanistan, and the Bagram air force base. Afghanistan, with billions of dollars of our military technology. All given to China. Why? It doesn't matter. What matters is the chaos that was the result. No one in the world trusts us any more as a partner or protector. Our treaties are basically worthless. Think not? Russia will be invading the Ukraine – again - soon enough. Our President promised to support the Ukraine and our mutual treaty. Yet, our current President in 2014 – when he was Obama's VP – and when given the opportunity to support the Ukraine when Russia invaded, sent them planeloads of... blankets. Maybe the Ukraine sent him a thank you note.

But it gets much, much worse. The Democrats – and please understand, there are a number of Republicans who are actually Democrat operatives – are destroying the very institutions that we have spent hundreds of years trusting. The Supreme Court is under attack. Our military has become a laughingstock. No one fears us any longer. The DOJ (and FBI) are being used – illegally – in the fight against all who oppose the Democrats. The IRS is being funded to grow enormously, to spy on average Americans, with the intent of controlling our lives. To create a class of slaves. You and me. Our kids. Our grandkids. And their grandkids.

And not just us Americans. This is happening all over the world. If it is to be stopped, it is up to us Americans to stop it. We cannot sit back and expect someone else to stand for us. Most other countries can barely stand for themselves.

Our Democratic demigods are actively seeking to destroy America. So many of the actions they have taken should have already been met with charges of treason. And yes, I am speaking of elected members of Congress, and their un-elected minions in the bureaucracy. As well as the executive branch. We are under attack. We need only to open our eyes to easily see that everything – EVERYTHING – they are doing is intended to destroy America.

I am just unsure if they are merely greedy, or are terminally stupid. All I know is – it doesn't matter.

And a final thought from Edmund Burke:

"When bad men combine, the good must associate; else they will fall one by one, an unpitied sacrifice in a contemptible struggle."
