"Hatred does not cease by hatred,  
but only by love; this is the eternal  
rule."

Buddha

Our thanks this issue to Joan Swirsky for the interesting commentary. Joan has graced our pages before, and we are always delighted to share her thoughts with our readers.

According to the Federal Bureau of Investigation's (FBI) Hate Crime statistics, Jews remain the highest target of rampant racism in America. Kanye West (AKA Ye), tweeted that his intention was to go Def Con 3 on Jewish people, which to most people meant to wipe out the Jews who so irritate and enrage him, including his managers, agents, handlers, doctors, et al.

So, it was quite out of the ordinary when Ye was severely sanctioned by his advertisers and overnight he was reduced to being worth a mere \$400-million dollars. So where does his hatred come from?

The human race is driven by emotion. The Number One emotion is fear, which we all witnessed as the Covid-19 pandemic swept the globe, forced children to miss two years of school, destroyed thousands of businesses, frightened millions of people into taking an experimental vaccine, often with significantly dire consequences.

The second most powerful emotion is jealousy. Most crimes--including murder--are committed in the name of this raging sentiment, and lesser crimes and everyday hostility are also caused by the monster of green-eyed envy. After jealousy, the third and hugely powerful emotion is anger, whether it involves dealing with an irritating relative, hitting a pothole that breaks your axle, or trying to reach your doctor by pushing 2, then 4, then more horrible music.

There is a fourth layer of the psychological onion, but let's look first at where the rage of the Blacks should really be--but isn't. Who fought ferociously against President Abraham Lincoln's Emancipation Proclamation, which freed 3.5 million Black slaves for all time? Democrats!

Who created the Ku Klux Klan, which hunted down, tortured, lynched, and murdered Blacks during its entire tenure (from 1865 to today)? Democrats! Who created the

This issue's **Imprimis** article is **Spiraling Violence in Chicago: Causes and Solutions** by Matt Rosenberg

The number of murders in Chicago climbed 55% in 2020. It was as if a switch had been flipped. At least 20 major cities hit new highs in 2021, led by Chicago.

**Hillsdale College**, in Hillsdale Michigan, is a school with no dependency on our federal government. They accept no tax funds, for any reason, and therefore they cannot be coerced to act against their beliefs. If you seek an institution to support, we recommend Hillsdale without reservation.

Jim Crow laws which mandated racial segregation in all public facilities? Democrats! Who fought fiercely against the Civil Rights legislation of 1964? Democrats!

Democrats created a welfare system with the following rule: I will support you, Ms. Black Woman, with housing, food, medical care, and childcare...no matter how many babies you give birth to...with one condition: you cannot marry! If you marry, your benefits will either be substantially reduced... or eliminated!

Poof! The one-parent home was created, where Black mothers still had to work to make ends meet, but where their children had no inspiring or disciplining male role models.

For over six decades, the criminal public school system in NY (and throughout the United States) has “graduated” multi-thousands of Black students who are unable to read, calculate, or even speak coherently. Inevitably, they find work with the neighborhood hot shots who drive fancy cars, sport Rolex watches, and have huge wads of cash on hand--pimps, organized crime figures, and drug dealers. And then they end up in prison, often for life!

Underneath the paralyzing layer of fear, below the obsessive nature of jealousy, under the blind rage and anger, there is the devastating emotion of despair. This is the stuff of clinical depression. This is the stuff of suicide.

After all, fear and jealousy and anger are mobilizing! What can I do? Which protest group can I join? Who can I wreak my revenge on? But despair has no allies. It is lonely. It is scary. It is immobilizing. It is also what Ye and the legion of anti-Semites are most afraid of, with good reason, as suicides among Blacks have recently escalated dramatically.

Or, alternatively, stay in your perpetual rageful victim mode and see how far you've progressed in the next five or 10 or 1,000 years!

And a final thought from Abraham Joshua Heschel:

*“Racism is man’s gravest threat to man – the maximum of hatred for a minimum of reason.”*
